

HRC2 ARC RATED RAINWEAR

Cementex rainwear is specifically designed for arc flash exposure and to minimize body burn percentage while exposed to extreme open flame hazards also known as flash fires. It is one of the most advanced systems in the safety apparel industry with it's certification to both ASTM F1891 and ASTM F2733 standards.

Premium 10 oz/yd² FR Polyurethane (PU) moisture barrier with FR cotton weft knit fabric offers lightweight, stretchable comfort that combines superior arc rating with hi-vis protection. FR PU is durable, flexible and will not become brittle as it ages.

Coat:

- *Style Options:*
 - 30" Length Jacket
 - 48" Length Trench Coat
- Contoured collar with a tuck away attached hood
- FR hook and loop wrist cuff adjusters
- Two reinforced front patch pockets with FR hook and loop closure
- FR mesh back vent allows for maximized airflow and breathability
- D-ring opening for use with fall protection harness

SIZE CHARTS & HOW TO MEASURE:

Jacket Measurements			
Size	Chest Girth	Sleeve Length	Sleeve at Elbow Girth
S	47"	33"	17"
M	51"	34"	18.25"
L	55"	34.5"	19"
XL	59"	35"	19.5"
2X	63"	35.5"	19.5"
3X	67"	36"	21"
4X	71"	37"	21"
5X	75"	38"	21"

Chest

Measure just under arms and across shoulder blades holding tape firm and level.

Sleeve Length

With elbow slightly bent, measure from center of the back neck to elbow and down to the sleeve hem

Elbow Width

Measure around the elbow with arm straight out.

Pant Measurements			
Size	Rise	Waist Girth	Knee Girth
S	24"	43"	22"
M	24"	46"	24"
L	24"	49"	26"
XL	25"	52"	28"
2X	25"	55"	30"
3X	26"	58"	32"
4X	26"	61"	34"
5X	26"	64"	36"

Rise

Measure from the top of the bib down to the crotch seam.

Waist

Measure around the natural waistline.

Knee

Measure around the knee at the knee cap.

Inseam for all sizes is 29" as garments are designed to be worn over existing clothing.
