

# ELECTRICAL SHIELDING MATERIAL ROLL BLANKETS

- Convenient & Low Cost
- Flexible & Easy to Cut
- Flame Resistant—Self Extinguishing
- Flexible to -40°F/C
- Highly Puncture & Tear Resistant
- No Annual Retests Required
- Meets ASTM F2320 standards

Protect workers from low voltage electrical hazards, with Cementex insulating material on a roll. Custom-cut fit each application on the job site—minimizing the number of different low voltage blankets sizes and shapes that would otherwise need to be carried from job to job.

**ESY-1 or ESO-7.5**  
(3' x 30' Shielding Material Roll Blanket)  
**ESY-1K or ESO-7.5K**  
(Roll selection with clamps & bag)

The Cementex high strength fabric reinforced type II rubber shielding material roll blankets are highly puncture and tear resistant, are flame (self-extinguishing), oil, and ozone resistant.

Available in convenient 36" x 30' rolls, custom cut lengths and remnant lengths are available. No annual retests are required on the roll blankets—simply discard sections that have been worn or damaged.

Product Options	Part Number
1000V 3' x 30" Shielding Material Roll Blanket: Yellow	ESY-1
1000V 3' x 30" Shielding Material Roll Blanket Kit: Yellow Includes Roll Blanket, Pair of Clamps and Carry/Storage Bag	ESY-1K
7500V 3' x 30" Shielding Material Roll Blanket: Orange	ESO-7.5
7500V 3' x 30" Shielding Material Roll Blanket Kit: Orange Includes Roll Blanket, Pair of Clamps and Carry/Storage Bag	ESO-7.5K
1000V 3' x 1' Shielding Material Remnant Foot: Yellow	ESY-1RF
7500V 3' x 1' Shielding Material Remnant Foot: Orange	ESO-1RF
Shielding Clamps (pair)	ES-Clamp
Carry/Storage Bag	ES-CSB
