**PRODUCT OFFERING
UPDATE BULLETIN
Rubber Insulating Gloves
effective August 2023**

August 17, 2023

We have made the business decision to discontinue some gloves previously offered after reviewing glove inventory and turns. The impacts are summarized below. In instances where other colors or length may be required, we did not believe the negligible difference in thickness and/or cost would prevent moving to the available alternate class 0 glove color or length options. The complete list of gloves/glove kits impacted and suggested alternate parts has been provided as well.

It is important to note that this overall run-out process will likely last for quite some time as we sell what we have available in each affected class and length variable. To that end, we will be verifying quantities on all new orders. Gloves will remain on RunOut status until they are out of stock, at which time they will be marked Inactive. Our customer service team has pop-up messages that will allow them to review the status while searching price and availability when on the phone. However, if orders arrive without prior confirmation of stock (happens all the time and is fine) we will reach out to the buyer and notify them if there are any specific issues.

The affected classes and lengths are listed below so as previously noted for each individual line there are varying quantities and how they may sell. We have alternates established for you whenever there are stock outs per se. Remember that the individual gloves set to Runout also affect the associated glove kits.

Discontinued Series Name	Discontinued Series Description	AC/DC Max Use Voltage	First Alternate Series Options
Class 00 – 11” length gloves	Discontinuing IG00-11-xR or IG00-11-xY All sizes (x) in Red or Yellow	500VAC/ 750VDC	We ARE keeping all sizes in Black IG00-11-xB
Class 00 – 14” length gloves	Discontinuing IG00-14-xB or IG00-14-xR or IG00-14-xY All sizes (x) in all colors.	500VAC/ 750VDC	Alternate when out of stock is Class 0 – 14” length gloves
Class 2 – 16” length gloves	Discontinuing IG2-16-xY	17,000VAC/ 25,550VDC	We ARE keeping all sizes in Black IG2-16-xB

If you have any questions, or for more information about orders or availability of any of these products, please contact Customer Service at 1-800-654-1292 or cs@cementexusa.com. Thank you for your understanding and we appreciate your ongoing support.
