

Arc Flash Hood and Helmet Light

LIGHT-1

As directed by OSHA and guided by NFPA 70E, employees shall not enter spaces where electrical hazards exist unless illumination is provided that enables the employee to do the work safely.

The Cementex arc flash hood and helmet light is the solution!

- Three (3) distinct beam profiles easily accessed with a simple press, hold, or double press of the button
- 1 Maxbright LED creates a powerful spot beam
- 2 White Ultrabright LEDs deliver a dimmable flood
- 2 Red Ultrabright LEDs handle close-range lighting
- Can be locked to prevent accidental “turn-on” when not in use.
- Bright, durable LED Light (205 Lumens)
- Connects to Cementex hoods with Light Strap and includes ultra strong hook and loop connection for Cementex Face Shields and Hoods without Light Strap
- Specifications
 - 205 Lumens
 - 150 hour Burn Time
 - Weighs 92g
 - Utilizes 3 AAA batteries
