

Arc Flash Hoods: Feature Series

The Series Task Wear provides premium safety and protection for multiple cal/cm² ratings: 12, 21 and 40. Please be sure that you are selecting the appropriate hood for the cal rating that is required. There are no sacrifices made when selecting the Feature Series in complying with OSHA, NFPA and CSA guidelines.

Features

- Westex® Ultrasoft materials
- Meet or exceed the standards set by NFPA 70E, CSA Z462 and OSHA 1910.269
- ANSI/ISEA Z87.1 (Impact Rating Z81+)
- PureView™ face shield technology features greater range of visibility
- Traditional hood style and optional Hood Light (LIGHT-1) may be attached with included FR hook and loop adhesive (optional)
- Lift Front Hood allow for quick and easy access to fresh air when outside of determined safety boundaries.
- The AFH40-FR-FAN-G is constructed specifically to include dual fans which provide a gentle breeze reducing body temperature and decreasing lens fogging.
