

# Combo Head Screwdriver

- 1,000 VAC / 1,500 VDC Double Insulated (Orange over Yellow)
- Cementex proprietary insulation material provides durable protection and ASTM F1505 and IEC60900 compliance
- Tapered insulation at working-end allows access to tighter locations
- Cushion Grip handle (when indicated by CG or shown) provides greater comfort and torque
- Premium, plated, corrosion-resistant steel
- Internal flanges in handle provide solid, twist-resistant blade

Combination head screws have become more commonly employed in electrical equipment, such as terminals, plugs, and sockets. Although originally designed to facilitate a range of drivers and a reduced number of drivers an engineer needs to carry, combination head screws have resulted in a greater range of drivers available.

This hybrid driver reduces slip-off and resultant damage to screw heads without applying excessive perpendicular force and potentially damaging components.

### Standard Steel 1000V Insulated

Part Number	Description
CHT2-4-CG	ComboHead #2 x4"
