

Robertson Tip Screwdrivers

- 1,000 VAC / 1,500 VDC Double Insulated (Orange over Yellow)
- Cementex proprietary insulation material provides durable protection and ASTM F1505 and IEC60900 compliance
- Tapered insulation at working-end allows access to tighter locations
- Cushion Grip handle (when indicated by CG or shown) provides greater comfort and torque
- Premium, plated, corrosion-resistant steel
- Internal flanges in handle provide solid, twist-resistant blade
- Composite options available

Originating in Canada over 100 years ago, the Robertson tip screw has become more commonly employed throughout the world and particularly in electrical equipment, including combination screws.

Available in multiple sizes and lengths, these drivers reduce slip-off and resultant damage to screw heads without applying excessive force and potentially damaging components.
