

Cementex Glove Talc provides pure comfort

CPGT-6SB

CPGT-1QC

CPGT-1GC

Cementex glove talc is an accessory for our high voltage gloves. Designed for safe use with insulating rubber products. Will not damage Type I or Type II rubber.

Glove Talc is a cooling, frictionless powder that absorbs moisture and perspiration to cool and protect hands when wearing the rubber gloves. It also lubricates to protect hands and prevents sticky gloves.

- No dangerous additives; designed for safe use with rubber insulating goods
- Absorbs moisture and perspiration
- Minimizes friction
- Prevents “sticky” rubber

Glove Talc SDS
