Cementex

The Safety Tool Specialists

Glove Labelling Product Bulletin

October 2026

Our goal is to keep our customer base informed at all times on our product offering, specifically on our insulating rubber gloves. We have significant inventories of rubber insulating gloves so we can best support our customers, in varying options. We are proud to meet your electrical safety needs each day. And, as the trusted safety tool specialists, Cementex led the way in providing, as a standard, tested and certified gloves.

The glove labelling / branding of our manufacturer (e.g., Marigold Industrial rebranded to Ansell then to ActiveArmr by Ansell) continues to evolve. Upon receipt of new gloves—they will always ship tested and certified, ready for issue—and depending on the class, length, size or color ordered may look like any of these gloves shown below. Gloves are always new; have passed the required electrical tests and shipped in sealed bags.

Cementex Products, Inc. | 650 Jacksonville Road | PO Box 1428 | Burlington, NJ 08016
609.387.1040 | Fax 609.386.8885 | cs@cementexusa.com

OSHA Certification Requirements

All Cementex gloves ship tested and certified according to OSHA regulation 1910.137(b)(2)(xii) which states the employer shall certify that equipment has been tested in accordance with the requirements of paragraph (b)(2)(viii), (b)(2)(ix), and (b)(2)(xi) of this section. This certification shall identify the equipment that passed the test and the date it was tested.

Maintain compliance with our rubber good products recertification services.

Cementex gloves will always have the appropriate testing and certification stamp (Class 0 is shown below):

Cementex Products, Inc.
Max Use. 1,000VAC | 1,500VDC
Date Tested: _____
