Cementex
The Safety Tool Specialists

Eagle Beak Pliers
NEW PRODUCT REVISION
Product Bulletin | October 2026

FOR EVERY LINESMEN'S AND SPLICER'S TOOL KIT
FORGED FOR STRENGTH. BUILT TO LAST. EASY TO USE.

Old Style New Style

Cementex revived the extinct the quick action adjustable wrench, also known as an Eagle Beak. This tool was previously produced via sand casting and even then it should have been in every linesmen's and splicer's tool kits.

The updated design of this tool not only continues to provide powerful hand leverage for splicing, but with the improved design in forged steel featuring a smoother jaw opening with sharper, reinforced teeth it and smoother adjustable guides this tool guarantees the consistency and ease-of-use you demand and deserve.
